PROFESSIONAL SUMMARY

Motivated Web & Web Application Developer with hands-on experience building full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in REST APIs, responsive design, and AI-assisted development tools (Claude, Cursor) that enable rapid prototyping and efficient delivery. A background in data science and machine learning adds strong analytical thinking to every project. Passionate about building clean, functional products and growing through real-world development challenges.

SKILLS

Languages & Scripting: Python, JavaScript, HTML, CSS, SQL

Web & App Development: Web Applications, Responsive Design, REST APIs, Full-Stack Concepts

MERN Stack: MongoDB, Express.js, React.js, Node.js, Basic AWS Concepts

AI-Powered Dev Tools: Claude, Cursor, Antigravity, Vibe Coding Workflow

Data & Analysis: Pandas, NumPy, Scikit-learn, EDA, Feature Engineering, Regression, Classification

Visualization & BI: Power BI, Dashboard Design, Data Visualization

Tools & Platforms: Jupyter Notebook, Excel, Git, GitHub

EXPERIENCE

Freelance Web & Web App Developer | Self-Employed | 2025 – Present

- Build and deploy websites and web applications for clients using JavaScript, React.js, Node.js, and HTML/CSS, with Python used for backend logic, APIs, and data-driven features.
- Leverage AI-assisted development tools (Claude, Cursor, Antigravity) and vibe coding workflows to rapidly prototype, iterate, and deliver functional web solutions.
- Design and develop full-featured web applications with user authentication, real-time features, and clean UI/UX.
- Collaborate directly with clients to gather requirements, translate ideas into working products, and handle end-to-end delivery.
- Continuously explore new tools and frameworks to improve development speed and output quality.

Data Science Intern | DataMites | 2025

- Worked on end-to-end data analysis and machine learning projects based on real-world business scenarios.
- Performed data cleaning, preprocessing, and exploratory data analysis on structured datasets.
- Built and evaluated regression and classification models using Python and Scikit-learn.
- Designed interactive Power BI dashboards to present insights effectively to stakeholders.

PROJECTS

GrabU – 10-Minute Hyperlocal Grocery Delivery App (AI-Assisted)

- Built a full-stack hyperlocal grocery delivery platform enabling local supermarkets to go digital with zero setup friction, targeting 10–30 minute delivery times.
- Developed a three-app ecosystem: a Flutter-based Customer App, a Partner App for supermarket owners, and a Next.js Admin Control Panel — all synced in real-time via Supabase (PostgreSQL).
- Implemented a Master Product Catalogue with 167+ real branded products (Staples, Dairy, Snacks, Fresh Produce, etc.) with high-fidelity regional brand images, enabling merchants to stock a digital store in minutes.
- Engineered a dynamic weight-based selling system for fresh produce, auto-generating 7 price variants (100g to 5kg) from a single shop toggle — eliminating manual price calculation for store staff.

- Designed a structured JSON address system with map pin animations and Nominatim search, enabling precise hyperlocal delivery with clean address cards for drivers and partners.

Sales Effectiveness / Lead Prediction

- Extracted and analyzed lead data from SQL databases to identify conversion patterns.
- Built predictive models to estimate lead conversion probability and visualized KPIs using Power BI dashboards.

Flight Fare Prediction

- Built a regression-based ML model to predict flight ticket prices with feature engineering and EDA.
- Evaluated model performance using appropriate regression metrics.

Mobile Price Prediction

- Developed a classification model to predict mobile phone price ranges using ML algorithms and feature selection.

EDUCATION

Bachelor of Computer Applications (BCA) | University of Calicut | 2022 – 2025

CERTIFICATIONS

- Certified Data Scientist – IABAC
- Certified Data Scientist – NASSCOM

LANGUAGES

English: Proficient

Hindi: Intermediate
